DHS RELEASES ECLIPSE™ 600, AN ENTERPRISE-CLASS ACCESS CONTROL SUITE FOR SMALL- TO MEDIUM-SIZED ORGANIZATIONS

FRISCO, TEXAS—March 28, 2008—Digital Horizon Solutions (DHS), a progressive provider of integrated access control solutions for today's IT-centric environments, announced today the release of Eclipse™ 600, a full-featured access control suite designed specifically for the needs of small- to medium-sized operations.

Eclipse 600 includes all the core features of Eclipse™ 700, DHS's powerful Microsoft .NET-based access control suite including access control, intrusion detection, alarm management, biometrics, report designer, DVR support, and custom linkage. Users who do not require the capacity of the full-scale Eclipse 700 can now enjoy the same level of security and protection as found in the world's largest mission-critical enterprises.

Eclipse 600 is built on the Microsoft .NET framework making it truly Vista compatible. It is designed to conform to the highest government security standards including HSPD-12 and FIPS 201.

Eclipse 600 Capacities

- Native .NET
- Microsoft Vista compatible
- Readers up to 128
- Inputs up to 1024
- Outputs up to 1024
- Unlimited number of cardholders

Product availability is immediate. Contact a DHS sales representative to order or call 888-592-1670 for additional information.

About Digital Horizon Solutions

Headquartered in Dallas, Texas, Digital Horizon Solutions (DHS) provides enterprise-level access control and integrated security solutions designed for today's IT environments. DHS' scalable and robust Eclipse™ security management solution affords customers a powerful and user-friendly technology which enables them to combat the ever-increasing threats posed to security, life safety and asset protection. With more than 30 years industry experience, the DHS team has developed enterprise solutions for airports, military installations, government facilities, universities, hospitals, and Fortune 500 companies around the globe.

DHS is a wholly-owned subsidiary of Keri Systems, Inc., an acknowledged leader and innovator of facility access and security systems, including proximity card access control, telephone entry systems, video surveillance and proximity readers.
