**DIGITAL HORIZON SOLUTIONS NAMES GENE CONLEY, PSP
WESTERN REGIONAL MANAGER**

FRISCO, TEXAS—May 5, 2008—Digital Horizon Solutions (DHS), a progressive provider of integrated access control solutions built for today’s IT environments, announced today the appointment of Gene Conley as the Western Regional Manager. Mr. Conley will develop the western region to include recruiting security integrators, assisting our national partners in maximizing their sales efforts to end users and strengthening the company’s position in all its target markets including casinos/gaming, education, financial and government.

“Gene’s knowledge and experience in access control and security industry, combined with his educational background in computer science is a natural fit for our highly technical team”, Mohsen Hekmatyar, VP of Sales said.

Mr. Conley is an industry veteran with more than 15 years experience in the security industry and most of his career has been working in access control. He began his career at Casi-Rusco Inc as a South Central Regional Manager attaining the President’s Club and 100% Club awards for various years. There, he started his path to developing a territory to include achieving increased sales and revenue growth by generating leads, creating marketing programs, and creating new channel partners. He worked at Honeywell as a security consultant where he did project management for installations with primary focus in the Middle-East.

Mr. Conley most recently served as the Regional Director for Physical Security at Assa-Abloy working with security systems integrators to increase sales to their end users. Most of his work was directly with architects/engineers, principals, and consultants. Mr. Conley is also certified as a Physical Security Professional. Additionally, he conducted training, security consulting, and attended various public speaking opportunities.
